

APPROVES RAIL CONSOLIDATION INTO BIG LINES

President Harding Says This May
Is National and Full of Prom-
ise; Declines Govern-
ment Ownership

OWNERS MUST OBEY

"Can Not Hope for Compliance of
Board's Holdings by Men as Long
as Decisions Are Ignored
by Managers"

(By the Associated Press)
Kansas City, June 22.—President
Harding today cancelled his pro-
posed trip to Swope park to present
medals to some Boy Scouts and to the
United States veterans hospital, as a
result of a severe case of sunburn
contracted in a 15 mile ride about
Kansas City after his arrival earlier in
the day.

The presidential party arrived from
St. Louis at 10 o'clock this morning
and the automobile ride over Kansas
City boulevard system was made soon
after, while the rays of the sun that
sent the temperature up to one of the
highest points of the summer were
beating down on the pavements. The
President removed his hat after leav-
ing the station and throughout the
hour and a half ride remained un-
covered.

Long lines had formed about the
convention hall at 6 o'clock, a half
hour before the doors were thrown
open. Each person was handed an
American flag as he entered and in-
structed to keep the banner concealed
until the President arrived at 8:05
o'clock.

Lips and Face Still Swollen.
At that time the audience which
packed to capacity the hall, which
holds 12,000, arose waving the flag
and cheering. The effect was obvious-
ly pleasing to the President and Mrs.
Harding, both of whom acknowledged
the greeting, while the ovation con-
tinued for several minutes.

Mr. Harding began speaking at
8:15 o'clock. He seemed to have vir-
tually recovered from the severe case
of sunburn contracted during the ride
about the city. Physicians treated his
swollen lips and face with ice packs.
His face, however, still was red-
dened from the effects of the sun.

A burst of cheering that lasted four
minutes occurred when the President
arose. It was the biggest demonstra-
tion that has greeted the executive
during his trip.

The first prolonged applause greet-
ed the President's statement that he
did not share the views of those who
advocated government ownership.

Can Not Compel Men to Work.
There was scattering applause when
he asserted that "property rights in
railway investment are entitled to
every consideration under our consti-
tution which is due to property rights
anywhere."

The temperature in the hall was up
near 95 degrees and a few left to seek
relief, but their places were taken as
soon as they passed out.

Mr. Harding, sensing too oppres-
sive heat, spoke more rapidly than
usual.

JURY ACQUITS MRS. GRINNELL

Prosecutor Will Attempt to Hold
Her as Material Witness
Against Mrs. Fairbanks

VICTIM OF EVENTS

Council Says Elderly Woman Took
Charge of Alexander Boy
to Please Benefactor

Schenectady, June 22.—Mrs. Harri-
ette A. Grinnell, 66, of Alexander
May, was tonight acquitted of the
charge of concealing Verner Alexan-
derson, after he was kidnapped from
Schenectady, April 30. The boy was
found May 3 with Mrs. Grinnell at
Thermon, near Watertown, and she
was brought here for trial in county
court. The prosecutor will attempt to
hold Mrs. Grinnell until October as a
witness against Mrs. Harry Fair-
banks, indicted for kidnapping.

The jury deliberated seven and one-
half hours.

Attorney T. A. Hendricks, counsel
for Mrs. Grinnell, in his plea to the
jury, declared that the woman long
had a reputation for honesty and that
it was evident she had not begun a
career of crime at her advanced age.

Further proof that she was not in-
volved in a kidnapping plot was in-
dicated, he said, by the fact that she
was not at the Indian river shack where
the boy was found previous to his ar-
rival and her evident attempt to
inform his mother of his whereabouts
when she learned his identity.

Plucks for Clemency.
Mr. Hendricks pleaded that every
means be taken to apprehend the al-
leged kidnappers, Harry Fairbanks
and Stanley Crandall, but asked
clemency for the woman who, he said,
simply had taken charge of the boy
to please a man, Fairbanks, who had
given her automobile rides.

Mrs. Grinnell tonight was the guest
of the Schenectady county sheriff,
pending appeal by District Attorney
Alexander Blewett tomorrow morn-
ing that she be held as a material
witness for the October trial of Mrs.
Wava Fairbanks, wife of Harry, and
indicted jointly with Mrs. Grinnell
for complicity in the case.

The aged woman remained calm
and composed throughout her trial,
even comforting Mrs. Fairbanks and
Mrs. Ruth Crandall, who is held as
a material witness, when during the
trial she became hysterical.

When the jury announced its ver-
dict Mrs. Grinnell shook hands with
each juror and thanked them for their justice.

ENGLAND WILL BE DRY IN TEN YEARS

"Pussyfoot" Johnson Declares
World Prohibition Pros-
pects Bright

New York, June 22.—A prediction
that England would prohibit the sale
of liquor in 10 years was made by
Lloyd George "to a friend of mine,"
William E. (Pussyfoot) Johnson, said
tonight on the eve of his sailing for
London. Mr. Johnson will remain in
London three weeks and will go to
South Africa at the invitation of the
South African Temperance Alliance
in October. He will journey overland
from Cape Town to Egypt and from
there to Palestine, Turkey and other
countries where he will speak in the
interest of prohibition.

"The outlook for world prohibition
is much brighter today than the pros-
pects of prohibition in this country
were 20 years ago," Mr. Johnson said
tonight. "It is impossible to say
just how soon the world will go dry,
but I expect England to abolish
the sale of liquor within 10 years.

Some of Great Britain's business men
realize that England can not compete
with America with the burden of
drink upon her."

DRY MEN MAKE BIG HAUL
New York, June 22.—Fifteen thou-
sand and 300 gallons of denatured alcohol, 12
gallons, 39 barrels of wine and three
thousand of counterfeit labels and re-
venue stamps were seized by prohibition
agents in a raid in West New York,
N. J., tonight. Four men were ar-
rested by the dry forces, headed by R.
Q. Merrett, division prohibition chief
of New York and Northern New Jer-
sey.

All the stills and 5,000 gallons of
alcohol were found in one building.
The stills were in full operation, the
agents said. A few doors away, 10,000
gallons of alcohol were found and
were said to have belonged to two
men arrested at the first address.

RAIL COMBINE WOULD RAISE COAL PRICES

Operators Declare 50 Per Cent In-
crease if P. & R. and C. N. J.
Are Merged With B. &
O. Lines

PLAN PLEASES REA

Penny Chief Approves Consoli-
dation to Reduce Unnecessary
Corporations; Wants Lib-
eral Powers

Philadelphia, June 22.—Were the
suggested merger of the Philadelphia
and Reading railroad and the Central
Railroad of New Jersey with the Bal-
timore and Ohio to evaporate an in-
crease of 50 per cent in the price of
coal would result, coal operators de-
clared today at a hearing before the
Interstate Commerce commission on
the proposal to consolidate the rail-
roads of the country into a few large
systems.

With the merger effective, Allen C.
Dodson, vice president of the Anthracite
Operators' association, explained,
the Reading and Jersey Central would
have to assume part of the car short-
age of the Baltimore and Ohio. This
would reduce the supply of cars for
the transportation of hard coal and
ultimately lead to the increased price
to the consumer, he said.

Samuel Rea, president of the Penn-
sylvania railroad, which would not be
affected by the merger, submitted a
statement endorsing the consolidation
of the roads into a few large systems,
with the provision that the larger
roads be not financially burdened with
union with the smaller ones.

Would Encourage Combines.
Mr. Rea said in part:
"I would encourage railroad consoli-
dation to eliminate unnecessary
corporations. The practical results
which I would aim would be to re-
duce the 1,600 or more separate rail-
roads operating and lesser corpora-
tions that form an essential part of
the continental system of the United
States, into the 136 class 1 railroad
companies and the 14 important
switching and terminal companies.

"Then the next step would be to
relatively small number of systems;
as about 22 recognized railroad sys-
tems now own 45 per cent of the
transportation revenues of the coun-
try.

"The point at which I would aim
is liberal powers for any company,
with the necessary credit to acquire
in every possible way every existing
smaller railroad corporation, and in
doing so to avoid heavy taxes, exten-
sive changes, issues and transfers of
stocks, bonds and other securities."

DAIRYMEN RE-ELECT OFFICERS

Utica, June 22.—The board of di-
rectors of the Dairymen's League Co-
operative association, Inc., organized
today for the year by re-electing of-
ficers as follows: G. W. Stocum, Milton,
Pa., president; John D. Miller, Sus-
quehanna, Pa., vice-president; Albert
Manning, Otsville, secretary; Bruce
Kilpatrick, Uta, treasurer.

Executive committee: Paul Smith,
Newark Valley; Fred H. Sexbuer, Ar-
burn; W. U. Rixford, Wellsburg; and
J. M. Coulter, Woodville. Mr. Coulter
succeeds J. S. Pettie, Greenbush.
The others were re-elected.

MANITOBA TO SELL LIQUOR

Winnipeg, Man., June 22.—Voters
of Manitoba adopted by popular vote
today a system whereby intoxicating
liquors will be sold by the govern-
ment. Although complete returns had
not been received, Winnipeg gave the
proposal a majority of 25,000 and
scattered reports from all over the
province indicated that the measure
was sure of passage. Herebefore
liquor had been entirely prohibited.

The dry vote won in Portage by a
small majority but the wet vote was
leading in Brandon and The Pass.

SENTENCED TO SING SING 24 HOURS FOR HIS CRIME

New York, June 22.—Justice
moved swiftly in Brooklyn today
for Chester A. Boeckel, locomotive
engineer, who was sentenced to
Sing Sing for five to 10 years for
attacking his 15-year-old daugh-
ter, Virginia.

BRITISH SHIPS IN PORT FOR LIQUOR TEST

Berengarin and Baltic Arrive With
Contraband in Sealed Store
Rooms for Use on Re-
turn Trip Home

SEIZURES TODAY

Customs Men Expected to Confi-
cate Wines Today; Liquors
Not Under Seal Thrown Over-
board at Three Mile Limit

(By the Associated Press.)
New York, June 22.—Two ocean
liners flying the Union Jack steamed
into New York harbor today with
valuable stocks of liquor for the trip
home, despite the fact that Uncle
Sam had said they must cross the
three-mile limit bone dry.

All day long the water front waited
to see federal agents pounce on the
liquor, breaking the British govern-
ment seals with which the lockers
were stamped and carrying away the
wet goods. But late this afternoon
the liquor remained untouched, al-
though officials at the custom house
announced that seizures would be
made tomorrow morning.

If this is done—and there was every
indication that it would—Secretary
of the Treasury Mellon, who promulga-
ted the dry ruling, may learn of his
orders being carried out before he
sails for Europe tomorrow on the Ma-
jestic. He is expected from Washing-
ton at any time.

ICE FORMS IN NEW MEXICO

Chicago, June 22.—Three states
experienced unseasonable cold yester-
day while the rest of the United
States sweltered. Some relief is in
sight for many sections, but in others
there will be no break in the heat
wave forecasters say.

The most notable contrast was fur-
nished by New Mexico, where a severe
frost made it necessary to break ice
in watering troughs in some sec-
tions. A live stock could drink; the mer-
cury dropped to 28 degrees above zero
on the Arizona desert. Citizens of
Superior, Wis., hurriedly dragged out
winter clothing when the temperature
there descended to 40. Generally
cooler weather was experienced in
North Dakota.

Chicago and vicinity and all sec-
tions southward and westward and
northern states staid. Four died,
and 20 were overcome in Ohio, bring-
ing the total fatalities for the
week to 21. Ohio reported five more
deaths.

INDICT SIX OFFICIALS OF DEFUNCT L. R. STEEL CORP.

Buffalo, June 22.—Grand jury in-
dictments against six former officers
and directors of the defunct L. R.
Steel corporation were reported and
five of the indicted officials arraign-
ed before Justice Hinkley in supreme
court today after a week of investiga-
tion conducted before the jury by Dis-
trict Attorney Guy B. Moore and
Deputy Attorney General Hugh Kelly.

All five of the defendants arraigned
pleaded not guilty and were admitted
to bail. Two of the indictments re-
ported were secret. The defendant
named in one of them appeared in
court and was arraigned with those in
the four open indictments. The sixth
official indicted has not yet been be-
fore the court. It was reported that
he would probably appear for ar-
raignment Monday. One no bill was
returned by the jury.

HELD FOR TESSMER MURDER

Chicago, June 22.—A charge of
murder was placed against Fred G.
Thompson, the "wife" to a man and
"husband" to a woman, arrested in
connection with the killing of Richard
C. Tessmer on June 5. Thompson has
steadfastly denied the Tessmer shoot-
ing, although identified by Mrs. Tes-
mer.

Superior Judge David dismissed
habeas corpus proceedings when in-
formed the police had procured a
warrant for Thompson.

turn Trip Home

SEIZURES TODAY

Customs Men Expected to Confi-
cate Wines Today; Liquors
Not Under Seal Thrown Over-
board at Three Mile Limit

(By the Associated Press.)
New York, June 22.—Two ocean
liners flying the Union Jack steamed
into New York harbor today with
valuable stocks of liquor for the trip
home, despite the fact that Uncle
Sam had said they must cross the
three-mile limit bone dry.

All day long the water front waited
to see federal agents pounce on the
liquor, breaking the British govern-
ment seals with which the lockers
were stamped and carrying away the
wet goods. But late this afternoon
the liquor remained untouched, al-
though officials at the custom house
announced that seizures would be
made tomorrow morning.

If this is done—and there was every
indication that it would—Secretary
of the Treasury Mellon, who promulga-
ted the dry ruling, may learn of his
orders being carried out before he
sails for Europe tomorrow on the Ma-
jestic. He is expected from Washing-
ton at any time.

WILL SEIZE SARDINES

One of the British vessels to defy
the American dry verdict and force
a test case was the Cunarder Beren-
garin. The fact that she intended to
carry liquor across the three-mile line
had been well heralded and treasury
agents in New York had been deluged
with orders from Washington as to
just how to act.

The other vessel was the White Star
liner Baltic. She took the waterfront
by surprise. Shipping officers—except
her own—were ignorant of the fact
that she contemplated a show-down
with the Berengarin and Baltic
were allowed to pass through Quar-
antine unmolested and proceeded to
their docks. Then came from the cus-
tom house word that nothing would
be done until the captains had ap-
peared with their manifests and ap-
plied for permits to retain enough
liquor for medicinal purposes. After
this, it was said, any surplus would
be seized.

It was learned that, at least in the
case of the Baltic, which beat the
Berengarin into port, the manifest
had been presented and the medicinal
liquor permits obtained. It was stat-
ed authoritatively that there would
remain aboard the vessel a substan-
tial surplus of liquor and that federal
agents would move on the two vessels
in the morning.

Davey Jones stowed away many
quarts in his locker as the result of
the treasury department's ruling.
However, for the Berengarin and Bal-
tic both tossed overboard at the three-
mile limit all the liquor provided for
the westbound voyage which the pas-
sengers could not drink.

This was done with appropriate
ceremonies aboard the Berengarin,
for passengers lined the rails at mid-
night with bowed heads and lowered
into the deep a bottle of champagne
wrapped in crepe and inscribed "to
the three mile limit."

Further contributions were received
by Davey from the decks of the Uni-
ted American liner, Hellene, flying the
Panama flag, which arrived bone dry
after tossing overboard her last six
bottles. Passengers on the Lapland,
a Red Star liner, succeeded in empty-
ing the bar before the limit was
reached.

SHUNS HOSPITAL TO PLEAD FOR HER SON

Englewood Woman Injured in
Wreck Wins Parole Before
Giving Wounds Attention

Allentown, Pa., June 22.—Two pas-
sengers and two trainmen were in-
jured in a rear-end collision between
the Syracuse-Philadelphia fast mail
train and a local train on the Central
Railroad of New Jersey here today.

The passengers were Charles L. Gran-
ham, Orlando, Fla., and Mrs. Anna
O'Brien, who was traveling from
Binghamton, N. Y., to Philadelphia.
They are in a hospital suffering from
minor injuries.

Philadelphia, June 22.—A mother's
harrowing experience of coming
through a railroad wreck and re-
fusing hospital treatment in order to
hurry home to make an appeal for the
liberty of her son, won a parole for
Frank O'Brien of Binghamton, N. Y.,
today.

Mrs. O'Brien, the mother, traveled
all night from Binghamton and re-
turned in time for the collision of the
mail express and a local train at Al-
lentown. She arrived in court with
her clothes torn and bruises on her
arm, but her only worry was the fate
of her son. When her case was
brought to the attention of Judge
Norris R. Barrett a parole was al-
lowed and the son, who was held at
Allentown, was released. The son, an
alleged narcotic drug addict, will
be placed on a farm by the mother.

WALL STREET AGAIN QUIET

Brokerage Troubles at End as Far
as New York Is Concerned,
Says Financier

BANKERS CONFER

Crowell Meets Members of J. P.
Morgan and Company; No
Details Obtainable

New York, June 22.—Wall street,
shaken to the depths by the string of
failures and resulted loss of public
confidence which followed disclosures
of widespread bucketing of customers'
orders breathed its first long breath in
a week today when powerful banking
interest stepped into the breach to
stabilize the market.

While the banking support was con-
fined to brokerage houses holding
membership in the New York stock
exchange, the strength injected into
that market carried prices up on both
the Consolidated and the curb ex-
changes, and a marked spirit of opti-
mism prevailed. The rushing to
cover by shorts aided in the strength-
ening process.

"Unsettled at End."
A prominent financier, associated
with one of the largest banks in the
street, told reporters this afternoon he
believed it was "safe to say the unset-
tlement in the brokerage situation is
at an end as far as New York stock
exchange houses are concerned."

One of the most interesting develop-
ments of the day to observers was a
conference of Seymour Crowell, pre-
sident of the New York stock ex-
change, with members of the firm of
J. P. Morgan and Company. None of
the conferees would discuss what
happened, but Mr. Crowell departed
cheerfully for a week-end trip out of
the city a short time later, indicating
that he did not expect anything terri-
ble to happen, at least tomorrow.

Confirmation was obtained of re-
ports that there had been a confer-
ence of large banking interests to de-
vise a means of stabilizing the situa-
tion, but just what measures were
taken could not be learned. Whether
a pool had been formed to support the
market and save brokers from disas-
trous runs like the one that overcame
the stock exchange houses of Knauth,
MacChod and Kehne and Zimmerman
and Forsyth, was not stated.

INVESTIGATE GUARD SHOOTING INCIDENT

Enraged Schenectady Railway Em-
ploye Said to Have Fired
into Jeering Crowd

Schenectady, June 22.—Authori-
ties tonight were investigating alleged
shooting affair at Aqueduct, near
here, the aftermath of trouble attend-
ing the derailment of a Schenectady
Railway company car. The car, man-
ned by men who have replaced strik-
ing carmen, left the rails at, at high
speed. It rounded a turn inbound to
the city. Guards aboard the car, it
was said, threatened with revolvers
boys who gathered about, charging
them with placing stones on the
track. Still later, when the car re-
sumed its trip, the guards were said
to have discharged their guns toward
a jeering crowd, with the result that
a man was cut by a ricocheted shot.

Earlier tonight a car bound out-
siding through the business section,
swung onto a switch left open by a
cross town car and rammed an auto-
mobile in the home bound stream of
traffic, injuring one person seriously
and causing cuts to others.

Harry B. Weatherman, president of
the company, has announced that in
two weeks he expects to have the
company lines in virtually complete
operation and will be in position to
consider the strike at an end. In-
junctions shortly will be sought, it
was added, to restrain litany operation.

PROFESSIONAL GAMBLERS AGAIN INFEST BIG LINES

New York, June 22.—Existence of
professional gamblers who inveigle
passengers on ocean liners into games
of chance was indicated today with
the arrest of John P. McKee, charged
with having swindled Daniel Rhodes
of London, out of \$5,000 on the Ac-
quintance's last western trip.

Police said Rhodes identified Mc-
Kee's picture in the rogues' gallery.
They also charged that McKee has
been connected with a similar case
several years ago in which Lord
Rensley of London, said he had been
swindled of 5,000 pounds, but which
the latter refused to prosecute.

Activities of card sharps aboard
large ocean liners have been light
since the war, until a few months
ago, police said.

WOLD ALLEGED "FENCE"

Tulsa, Okla., June 22.—Cloning
in on an alleged powerful gang,
which, it is charged, has acted as a
"fence" for bonds stolen in all parts
of the country, officers today arrested
Ed King, of the Bank of Shidder, at
Shidder, Okla., and Del Williams, of
Pawhusa, King is alleged by the
officers to be the leader of the gang.

NEWARK, June 22.—Mrs. Mary
Creighton and her husband, John,
were arrested by a jury late today of
the murder by poisoning of Charles
Raymond Avery, Mrs. Creighton's
brother.

VAN SWERINGEN MERGER GIVEN I. C. C. SANCTION

Nickle Plate and Four Other Roads
Combine into One System,
Which Crosses All Lines
Tapping West

PUBLIC BENEFITS

Dissecting Opinion, However, Says
Act of 1920 May Be Nullified
as Far as Consolidation
Is Concerned

Washington, June 22.—The projec-
t of the Van Sweringen group, now in
control of the New York, Chicago and
St. Louis railroad to consolidate that
property with the Lake Erie and
Western, the Toledo, St. Louis and
Western, the Ft. Wayne, Cincinnati
and Louisville railroad, and the Chi-
cago and State line railroad, was ap-
proved today in its entirety by the
Interstate Commerce commission.

The commission's order took the
form of approving the New York, Chi-
cago and St. Louis company's applica-
tion to issue 327,000 shares of its
per cent of preferred stock and 482-
479 shares of common stock, a part
of which is to be exchanged for issued
capital stock of the companies to be
taken into the merger. The order also
incorporated a certificate declaring
that public convenience and necessity
required the operation of the group of
lines as a single unit.

Commissioners Hall, Eastman and
Each dissented from the majority
opinion on the ground that the gen-
eral plan of consolidating railroads
would be interfered with if a single
group was permitted to proceed with
a merger.

Serves Public Interest

The majority, in granting the Nickel
Plate corporation's request, said in
part:
"The arguments against granting
the application before us have been
carefully weighed. Extensive discus-
sion of them seems unnecessary. We
are satisfied the proposed issue is in
the public interest. The tentative con-
solidation plan of the commission and
the showing made in this proceeding
support the conclusion that consoli-
dation of the member and common-
stockers have involved so serious the pub-
lic interest that immediate action would
be necessary."

The Van Sweringen group of Clevel-
and which recently acquired con-
trol of the Chesapeake & Ohio, has
operated the Nickel Plate and the
lines which it is now proposed to con-
solidate with it for some time. The
only criticism brought against it was
based on the ground cited by Com-
missioner Eastman as to the degree
to which the consolidation might in-
terfere with the tentative program of
"the commission, laid down by the
transportation act of 1920, to bring
about the consolidation of all rail-
roads in the United States into a 18
to 20 great operating units."

"This finding will gravely impair,
if it does not destroy," Commissioner
Eastman, in his dissenting opinion,
said, "all power to administer suc-
cessfully what the authors of the trans-
portation act of 1920 deemed to be one
of its constructive and important pre-
visions."

Dream of Two Brothers.
Cleveland, June 22.—The order of
the Interstate Commerce commission,
approving the merger of the five Van
Sweringen lines completes a dream of
O. F. and M. J. Van Sweringen on
which they have been working for
months. It is said to be the first
important consolidation undertaken
since the passage of the transportation
act.

The lines have a total of 1,700 miles
of track through New York, Penn-
sylvania, Ohio, Indiana and Illinois.
They have been operated as a unified
system for some time. The cost of
replacing the merged roads, less de-
preciation, is placed at \$219,955,500.

As now constituted, the system
crosses practically every important
railroad tapping the west and inter-
sects nearly all the lines crossing
north and south. Its trade name will
be the Nickel Plate, but the company
name will be the New York, Chicago
and St. Louis Railroad company.
Designations of the four roads ab-
sorbed by the merger and losing their
identity, probably will be retained as
division or line designations, it is said.

ASKS APPROPRIATION

White Plains, June 22.—Deputy
Attorney General Wilbur F. Chambers
said tonight that an appropriation to
carry on an investigation into the
alleged slaying of Clarence Peters of
Haverhill, Mass., by Walter S. Ward
would be asked from the Westchester
board of supervisors.

The announcement was made after
a conference here between Mr. Cham-
bers and District Attorney Arthur
Rowland. The next meeting of the
county board of supervisors will be
held July 2. Mr. Chambers declared
he would present the case before the
grand jury next Monday. He refused
to say what witnesses he intended to
call.

SEIZE SHIP LIQUOR

Mobile, Ala., June 22.—The first
seizure of liquor under recent deci-
sion of the United States supreme court
leading foreign ships could not bring
liquor into ports on ship's stores, was
made here today when customs offi-
cers seized liquor aboard the Nor-
wegian steamer Svanen and Svanen.
Two quarts of 25 and whiskey were
seized off the Svanen and two quarts
off the other vessel. The liquor seized
on each vessel was found on the main-
deck.

Delaware County News

AT HOME NEAR DELHI.

Mr. Virginia Lasher and William A.
Buel of Elk Creek Are Married.

Delhi, June 22.—The home of Mr.
and Mrs. Isaac Lasher, near this vil-
lage, was the scene of a pretty wed-
ding on Wednesday, June 20th. At
noon, when their older daughter, Miss
Virginia, was the bride, and Mr. A.
Buel, of Elk Creek, was the groom, the
wedding ceremony was performed by
Rev. Lewis Lasher, the bride's pastor.

The bride was given away
by her father. Her sister, Miss Susan
Lasher, was bridesmaid, and her
cousin, John Lasher, of Bainbridge,
was best man. Miss Mary Buel and
Miss Mary Buel and Miss Mary Buel
were bridesmaids, and Miss Mary Buel
and Miss Mary Buel were bridesmaids.

The regular meeting of Delhi
Grange will be held next Tuesday eve-
ning in the I. O. O. F. hall, and the
Delphi society will meet the same
evening with Mrs. Howard Graham.

Return to Lake Placid.
Heth O. Coons, formerly of Delhi,
has re-engaged for another year as
principal of the High school at Lake
Placid, and Miss Millicent Robinson,
daughter of Mr. and Mrs. Nelson Rob-
inson, of Fall Mills, will also return
for another year as a teacher in the
school.

Death of Fred Morris.
B. F. Morris of Hamden has returned
to the County Sanitarium, after
spending several days with his family
and attending the funeral of his son,
Fred, who died at the Sanitarium last
week. The young man, Fred, was
gassed in the military service over-
seas and pulmonary tuberculosis re-
sulted, causing his death.

The Pomona at Franklin.
Delhi people who attended the
Pomona Grange meeting at Franklin
Tuesday were: Mr. and Mrs. A. D.
Howell and daughter, Miss Evelyn,
Sheldon Pritchard, Professor and
Mrs. DuBola, Mr. and Mrs. Thomas
Middlemist, Rev. and Mrs. Grant Rob-
inson, George W. Grant, Mrs. J. H.
Bull, Mrs. Austin Hughes, and Mrs.
Fred Schneider. The meeting was an
enthusiastic and largely attended one.
Seventy-five fifth degree grangers
were present, and all the Pomona of-
ficers were present except W. H. Bene-
dict of Sidney Center, who is in poor
health and unable to come. Reports
showed an increase in membership of
17 in the county during the spring
quarter. Addresses were made in the
afternoon by Worthy National Master
Sherman Lowell of Fredonia, Pro-
fessor Babcock of the G. L. F., and
Director DuBois of the Delhi State
school. In the evening the fifth de-
gree was conferred on a class of 12
and a program of music and recita-
tions were enjoyed.

LATE TREADWELL LETTER.
Mrs. May Lindsay Haight to Preach
Three Times Sunday.

Treadwell, June 22.—Mrs. May
Lindsay Haight, who held evangelistic
services here at one time, will preach
at the morning, afternoon, and eve-
ning services Sunday.

Housewarming Sunday Afternoon.
July 1—All Are Invited.

Cooperstown, June 22.—Sunday af-
ternoon, July 1, at the Children's
home on the Glimmerglass farm, there
will be a housewarming, to which
everyone is invited; all
interested in the work that is being
done for children. At the present time
five children are being cared for at
the farm, and many others have been
temporarily placed until suitable
homes could be provided for them.
The home was opened about six
weeks ago.

The Camping Colony.
Mr. and Mrs. Lewis S. Ellsworth
and son, Kirk, of Carlisle, Pa., have
joined the camping colony on Otsego
lake shore. They have as their guests
Mr. and Mrs. W. H. Goddard and
their three daughters. The camp has
been named De-anah-wah lodge.

For X-Ray Work.
Little Miss Julia Harris of Rose-
boom, who was a patient at the Mary
Imogene Bassett hospital for several

months last winter and spring, is
again a patient there for a short time,
for x-ray treatments.

THIS FROM COLLIER.
Colliers, June 22.—Mr. and Mrs.
Paul Lenz, who spent several days in
Johnstown, have returned home.—Mr.
and Mrs. Earl Simmons of Davenport
Center were business callers in town
Wednesday evening.—Mrs. D. D. Mor-
gan and two daughters, Barbara and
Rachel, of Duluth, Mich., are spending
the summer with the former's pa-
rents, Mr. and Mrs. Hobbs.—Mrs. W.
Still and daughter, Charlotte, of
Schenectady were calling on friends in
town Tuesday.—Miss Lizzie Snyder is
the owner of a new Ford roadster.—
At the Sewing circle, which met with
Mrs. W. J. Barnes Thursday, guests
were present from Unadilla, Port-
landville and Milford Center.—Mr.
and Mrs. George Rose had as their
guests recently, Mr. and Mrs. John
Brown and Mr. and Mrs. Sheldon Tur-
bush of Oneonta, Harry Green of
Binghamton and Mr. and Mrs. How-
ard Green of Cooperstown Junction.

DON'T WAIT FOR BREAKDOWN
Writer Gives Reasons Why It Pays
to Have Regular Times for
Physical Examinations.

Most people have had the experience
of going to a doctor for an examina-
tion at some time in their lives, some
have had to go many times. Usually
they have gone because there was
something wrong with them, pain,
fever, a cough, a rash or what not, but
never, something for the doctor to
study, give a name to and prescribe
for. But imagine the factory manager
who waits for the machinery in his
plant to break down before he gives
thought to having it overhauled—how
long would he keep his job? Is his
machinery more important or more
liable to accidents than that of your
body? Don't you think it would pay
to have it overhauled before the break-
down comes and to see if the machi-
nery is really being run efficiently?

In Myrtle, Dr. Haven Emerson, pro-
fessor of public health in Columbia uni-
versity, gives reasons enough to con-
vince the most skeptical that health ex-
aminations pay, not only in increased
health but also in dollars and cents.
"It has grown to be a custom" for peo-
ple who employ men and women in
large numbers in shops and factories
"to have each new employee examined to
see if he or she is in sound health."
And again: "Many of the nations are
requiring an annual health examina-
tion of their members, because they
have found this the best way to pre-
vent the illnesses which cost their gov-
ernment funds so much." If these peo-
ple who are in the business that it
worth while and economical there is
probably something in it.

George De Wolf.
The student body now application of
rules as a safety is illustrated by the
building "Bible" over the nation.

ing services Sunday. Lunch will be
served after the Sunday school and
coffee at 6 o'clock for all who wish to
remain for the evening service.

League Social and Make Sale.
The Epworth league received over
twenty dollars at their ice cream
social Friday evening, and twelve dol-
lars from their make sale Saturday.
The interior of the league room
is being redecorated.

Schools Held Plans.
The schools here closed Friday
with plans. The older boys of the
village school played ball with the
Meridale team and defeated them.
Recently were held the first three days
of the week.

Bully Beaten.
Mankie Houck fell through the hay
chute in the barn Wednesday morning
and sustained painful bruises but no
broken bones.

Minor Mixture.
Mrs. Nettie Howe of Otego and
daughters, Misses Beryl and Louise
White, spent the week-end at their
home here.—Delos Decker and family
of Otego visited Mrs. Decker's father,
Frank Burdick, Sunday.—C. R. Van-
dusky is repainting Miss Ann Rod-
field's house.—Stewart Hall and
Arthur DuMont visited friends at En-
dott Saturday and Sunday, and en-
joyed an auto trip to Watkins Glen.—
Mrs. H. A. Tucker and son, Raymond,
and Mrs. Louise Murdoch and child-
ren of Oneonta, were callers at Han-
ford DuMont's Sunday afternoon.—
Mr. and Mrs. Jay Scrambling and Mr.
and Mrs. Tracy Huntington attended
Pomona Grange at Franklin Tuesday.
—Curran Mitchell and Carl Bender,
with E. S. Bell, Fred Stockman, and
Ray Palmer of West Meredith, at-
tended Masonic meeting at Franklin
Wednesday evening.—The Epworth
league will hold an ice cream sale at
Wheat's store this Saturday evening.
—Mr. and Mrs. Fred Bender, Mrs.
Louise Stodoley, and Irving Stodoley
enjoyed an auto trip to Margaretville,
Stamford, Roxbury and Grand Gorge,
Wednesday.—Jay Smith of Bainbridge
visited friends here Wednesday.

JUNE DAYS IN HOBERT.
The Gallups and Oneonta Friends
Gallop Away to Boston.

Hobart, June 22.—Mr. and Mrs.
George J. Gallup left Wednesday for
a two weeks' vacation trip to Oneonta
and in company with Mr. and Mrs.
Leroy Parish of Oneonta will motor
to Boston, Mass., where they visit Mr.
and Mrs. Clyde Parish at Winchester,
Mass.

R. A. Hillis of Bloomville has pur-
chased a new Durant five-passenger
touring car.

Painting Hobart Hotel.
Churchills of Stamford are paint-
ing the new Hobart hotel.

More Hobart News.
Miss Isabelle Rose of New York city
is here to spend a few weeks' vaca-
tion with her uncle, F. T. Villi-
man, and other relatives in town.—
Lester Shakleton, who has been in
Washington for the winter, has re-

turned for the summer and will assist
Mr. Sanford at the drug store.—
Union service at 7:30 o'clock Sunday
in the Presbyterian church, when
the sermon to the graduation class
will be preached by Rev. D. E. Haynes.
—Mrs. R. J. Harrison and son, Ed-
ward, who are visiting relatives in
Indiana, are expected to return the
thirtieth of June.—The marriage of
James S. Cowan and Miss Mary Wis-
singer took place at Birmingham, Ala-
bama, June 20. Mr. and Mrs. Cowan
will return to Hobart and reside on
the Cowan homestead farm.—Mr. and
Mrs. Percy Hotchkiss of Rochester
are enjoying a two week vacation
with Mr. and Mrs. Orrin Reed.—Mr.
and Mrs. R. H. Thompson and Mrs.
Janette Ann attended the funeral ser-
vice of the late William Polley, held
from his home in Oneonta Wednesday.

Visitors From Denver.
The Misses Jean and Sarah Inger-
soll of Denver, Colorado, are here to
spend a short time with Mr. and Mrs.
W. E. King, Mr. and Mrs. C. E. Han-
ford and other relatives in this lo-
cality.

Chevrolet in Demand.
Odell Brothers have received and
unloaded three carsloads of Chevrolet
cars delivered at the Hobart station
this week.

Mrs. Hillis Ill.
Dr. C. J. Hillis of Kingston was called
to Hobart Wednesday by the ser-
ious illness of Mrs. John O. Hillis.
Late reports are Mrs. Hillis is more
comfortable.

DAVENPORT CENTER.
Davenport Center, June 22.—Mr.
and Mrs. Irving Chichester of Stan-
ford were the guests Friday after-
noon of Mr. and Mrs. Frank Rogier.
—L. VanDyke of Laurens spent
Tuesday and Wednesday with his
brother, A. J. VanDyke.—Mr. and
Mrs. Fred Paine and Mrs. VanBum-
ble and daughter of Binghamton, Mr.
and Mrs. William Orr and sister, Miss
Addie, of South Kortright were recent
guests of Mr. and Mrs. Rogier.—
Mr. and Mrs. F. C. VanDyke of En-
dott, Mr. and Mrs. H. A. Phillips
of Springfield, D. L. VanDyke of
Laurens, A. J. VanDyke, Mr. and Mrs.
G. E. Simmons, Mr. and Mrs. A. D.
Potter and two sons, I. D. Goodrich
and M. C. Hebbard of this place at-
tended the funeral of C. P. VanDyke
at Grand Gorge Wednesday.—Mr. and
Mrs. Frank Rogier and guests spent
Sunday at Chester Uter's at Stan-
ford.—Milford Center and Daven-
port Center crossed bats at this place
Saturday, the former winning 12-7.

CHILDREN'S DAY EXERCISES.
East Meredith, June 22.—Child-
ren's Day exercises were given Sunday
evening to a full and appreciative
house. Everyone did fine. Much credit
is due the teacher for the efficient
training given the children. The choir
added much to the pleasing of the
evening.

Home From Rome.
Theo Sprague returned to Rome
Monday for treatment in the hospital.
Mrs. Sprague returned with him.

There must be one "best" in every
line. We have honestly tried to make
it exclusively how well we have suc-
ceeded.

PAIGE BUILT

Special Touring \$1220
Special Coupe \$1625
Special Sedan \$1695
Prices as shown. Tax Extra

Her Jewett Special—"a dream to drive"

Nimble—Dependable—Smooth—Complete

Away she goes—care free and confident—
in her Jewett Special. She says it's "a dream
to drive"—so simple she "didn't have to learn
how." Never has she stalled the motor nor
ticked the car—so smooth the Paige-type
clutch. Never has her Jewett failed to do her
bidding—so certain its performance.

Up most any hill on high—thanks to
Jewett's 50-horsepower motor. Around cor-
ners in traffic at 2 miles an hour—never a
thought of changing gears. Out of congestion
in a jiffy. From 5 to 25 miles an hour in 7
seconds is her high gear. Jewett is nimble, quick
on its feet, obedient—a wonderful Paige-
built six, at the price of a four!

You'll never worry over your loved one
in a Jewett, because Jewett is Paige built.
Paige-Timken shafts front and rear. Paige-
built motor. Paige-type clutch and transmis-
sion. Jewett is the only modern six car
built by a maker of Street quality cars. These
words of families are enjoying the confidence
this brings.

Women are always comfortable in the

Jewett. It is heavy enough to ride smoothly
over all roads—200 pounds heavier than any
car of its size—cradled on extra long springs.
Seat cushions are soft; body positions just
right. Upholstery is hand-crushed Spanish
leather, of special colors to match the car.

Men point with pride to Jewett's motor,
with its high-pressure, hollow crank-shaft
oiling system—like the big Paige. It sends 2
gallons of oil a minute through all main and
connecting-rod bearings. Makes smooth,
quiet operation; assures long life and small
upkeep.

Jewett Special is complete. Nickered
spring bumpers front and rear. Nickel-plated
radiator and accessories. All nickel, barrel-
type headlights and side lamps. Extra cord
tire, tube, rim and cover, mounted at side.
Trunk rack and trunk. Body gased metal.
Automatic stop-light. Automatic windshield
wiper. Rear vision mirror. Sun visor.

Jewett Special is truly—"a dream to drive."
Let her decide after a demonstration. You'll
find no equal to Jewett Special's \$1220.

WOMAN SUFFERED

THREE MONTHS

Pain in Back and Nervousness.
Made Well by Lydia E. Pinkham's
Vegetable Compound

Montevideo, Minn.—"I suffered for
three months with pain in my back
and sides, and was
awful nervous so
that I was unable to
do my work. After
I began taking
Lydia E. Pinkham's
Vegetable Compound I
grew strong, and now I
weigh 150 pounds.
I keep house and
am able to lift and
do anything of
work. I have got
wonderful results from the Vegeta-
ble Compound and recommend it very
highly to my friends. I give you per-
mission to publish my testimonial."
Mrs. OLA BERNSTROM, 2108th St. So.,
Montevideo, Minnesota.

Another Nervous Woman Finds Relief
Port Huron, Mich.—"I suffered
for two years with pain in my side,
and it worked very much. I was
nervous and just as tired in the morning
as when I went to bed. I was sleepy
all the day and didn't feel like doing
anything, and was so nervous I would
bite my fingernails. One of my friends
told me about Lydia E. Pinkham's
Vegetable Compound, and it helped
me so much that I soon felt fine."
Mrs. CHARLES HAZLER, 1910 Elk St.,
Port Huron, Mich.

"Don't let him know
I'm his mother—
perhaps if I stay I
can make up to him
for the wasted years
and maybe teach
him to love me just
a little."

The prayer of Mary
Tilden, who has just
found the son that
she deserted twenty-
five years ago.

FOREST RECREATION
Facilities for forest recreation are
being provided rapidly but they are
not more than keeping pace with a
popular demand which is felt not
merely in large cities. Municipalities
not larger than Oneonta feel the urge
to the great out-of-doors, and even
in villages and rural communities
there is a longing to break away from
home environments and to seek the
mountains, lakes and woods. The
nature of the demand is imperative
as it is largely a matter of the health
of the people. The importance of
forest recreation is seen when the
large concentration of population
within the state and the inadequacy
of city parks are considered, says
Prof. H. R. Francis, head of Forest
Recreation at the New York State
College of Forestry, Syracuse university.

Last year there were recorded
3,900,000 visitors to the New York
portion of the Adirondack State
park. The number increased 25%
over the previous year. A similar
ratio of increase holds good in the
larger parks of the Adirondacks, the
Catskills and the Allegheny State
park.

The increasing number of people
who will be seeking health and re-
creation in forest parks is an im-
portant factor in Forest Recreation.
New York City alone will have, seven-
teen years hence, more than 3,000,000
population. In eleven cities of the
state there will be about 1,000,000
people which is nearly 5% more
than we have in the entire state at
present.

The state is trying to keep up with
the demand for forest recreation by
developing our forest parks and by
creating new parks. The proposed
\$10,000,000 bond issue would do much
in this direction. Part of this money
was provided this year by direct ap-
propriation. The Conservation com-
mission in the Adirondacks and Cats-
kills is making a large contribution to
the out-door pleasures of the people
by building trails and campgrounds for
those who enjoy the isolation of the
wilderness and the highway depart-
ment is contributing its share in
building roads for tourists through
these sections. There are now 300
miles of trails in the State Forest
system and 100 miles of highways. The
people of New York have the best

and most beautiful scenery in any
state, and the public should
appreciate the use of it that it
may be preserved and grow in use-
fulness.

West Oneonta Church Services.
First Baptist church, West One-
onta; Rev. F. H. King, pastor; morning
services at 10:30, with sermon by
the pastor. Sunday school at 11:45.
Christian Endeavor at 8:45.
Century Baptist church, West One-
onta; morning service at 10:30,
preaching by Rev. Charles Briggs of
Mt. Vernon. Sunday school at 11:45.
Christian Endeavor at 8:45.

Picnic of U. P. Sunday School.
The Sunday school of the United
Presbyterian church will hold its an-
nual picnic this afternoon at
2:30 in Wilbur park. Luncheon will
be served at 5:30. A program of
games has been arranged, including
races, a baseball game between mar-
ried and single men, and other fea-
tures. Everyone is cordially invited.

Examination for Milk Testers.
The department of farms and mar-
kets announces that an examination
will be held for those desiring to ob-
tain licenses to test milk and cream
by the Babcock method, at the State
School of Agriculture, Delhi, on
Thursday, June 28, from 10 a. m. to
4 p. m.

Baccalaureate Service at Schenectady.
Schenectady, June 22. — The baccalaureate service for the graduating
class of the Schenectady High school
will be held Sunday evening at 7:30
o'clock in the Baptist church. Rev.
George J. Scobey will preach.

THE GUIDE POST—
BY HENRY VANDYKE

FOOLISH NOVELTIES
LIGHT AND VISION

I am come a light into the world,
that whosoever believeth in me may
not abide in darkness.—St. John 12:46.

Just what light is, has long been in
dispute. But what light does is evi-
dent. It enables us to see. Christ says
that it is his mission in the world,—to
help us to see God, and ourselves, and
the real meaning of life. Those who
believe in Him receive this power. But
the vision varies according to the
strength and clearness of our eyes.
Some are color-blind, some far-sighted,
and some near-sighted, some are
strayed,—but to all the light brings a
great gift.

We might as well expect all men to
believe precisely the same world when
the sun rises, as suppose that all
Christians will see precisely the same
spiritual truths when Christ gives
them light. Some will see clearly,
some dimly; to some the forms will
be sharp, to others dim; some will
have a vision of the colors of life,
others will see it only black and
white, or gray. But all who believe in
Christ will escape from darkness and
into the light of day. They will know
that God is not far from them, but
close at hand, and that he is not
a distant, cold, unfeeling deity, but
a loving, merciful Father.

OTSEGO COUNTY ROADS

Report of Engineer A. T. Paine of
This City on Touring Conditions of
This County—Present Ongoing Work.

Following is a copy of the report
on touring conditions in Otsego county
sent yesterday to Division Engineer
Charles M. Edwards of Albany
by County Engineer A. T. Paine of
this city:

Route No. 1, Sidney to East Wor-
cester.—From Sidney near Sidney,
Canadilla, Wells Bridge, Otsego,
Oneonta, Colliers and Maryland, motor-
ists are cautioned to use care in pass-
ing these places, workmen and equip-
ment ahead, traffic using one side of
road in passing these places.

Route No. 1, Lavenport Center to
Colliers to Cooperstown.—Some small
road improvements between Colliers and
Milford. Motorists asked to use cau-
tion in passing these places, workmen,
equipment ahead with cars passing
on one side of the area being repair-
ed.

Cooperstown-Springfield Center to
Richfield Springs and West Winfield.
No detours and all in fair condition.
Going from Richfield Springs toward
West Winfield. One side only, plainly
posted.

Richfield Springs to Cherry Valley to
Springfield Center all in good condi-
tion except portions between Cherry
Valley and East Springfield. Four and
one-half miles very rough. No de-
tours.

Oneonta-Morris to Mt. Upton.—
Good road to Morris; rough macadam
toward Gilbertville for three and one-
half miles, then good concrete road
to Mt. Upton. No detours.

Garrattville to West Burlington un-
der construction; traffic allowed
through with care. Best detour, take
left turn at first four corners, 1 1/4
miles north of Garrattville, thence
east over fair dirt road, narrow for
1 1/2 miles, taking right turn and
motoring north for three miles over
fair, straight dirt road, very hilly,
after 1 1/2 miles direct to West Bur-
lington. This will be the best route
for the season. Plainly posted.

Schuyler Lake, two miles south un-
der construction. Road closed. Detour:
Take right turn over the Southern
New York Railway corporation tracks
and Oakes creek, one-half mile north
of the hamlet of Oakesville, thence
left turn northerly, keeping on the east
side of Oak creek over a fair, narrow,
level dirt road four miles direct to
the main road of the east side of
Schuyler Lake one mile, or the right
for Richfield Springs five miles. This
will be the best route for the season.
Plainly posted.

Edinboro-Burlington Plains to West
Essex and West Winfield, all maca-
dam and no detours.

Schools in Philippines.
The Philippine Islands have a total
of 8,174 schools, public and private,
with an approximate enrollment of
1,100,000, according to the bureau of
education and the superintendent of
private schools. It is estimated that
the Philippines have a population of
25,000,000 children of school age.

Public schools alone number 7,041
and attendance reached a total of
1,094,472 during the last year, while
private schools number 532 and have
an enrollment of 64,885.

Eighty-five per cent of the private
schools in the Philippines are religious
institutions, and only 15 per cent secu-
lar. Seventy-seven per cent of the re-
ligious private schools are Catholic,
while the remaining 8 per cent are
Protestant.

The public school system, in which
English is taught, includes 24,578 teach-
ers, 241 of whom are Americans.

The Real Divorce Reason.
One of these solemn statistical re-
searches into the divorce question has
been completed back East, and the re-
searchers have announced with proper
impressiveness the result of their in-
quiry. They announce eight principal
reasons for the prevailing instability of
marriage. One reason is:

"Failure of contracting parties to
regard properly the solemn bonds of
marriage."

The other seven reasons don't mat-
ter.

All divorce researches so far have
been, in a sense, failures. That is,
none of them has yet discovered that
35 per cent of all divorces result from
refusal of the party of the second part
to appreciate properly the humorous
anecdotes told by the party of the first
part.—Spokane Spokesman-Review.

Reason for Embarrassment.
I had always been accused of doing
eccentric things, but I didn't realize
the truth of it until one Sunday. I
rushed just across the street from the
church I attended. I went to church
without an umbrella. When the ser-
mon was over it was pouring outside.
Having on a perfectly respectable un-
der-shirt, I turned my suit skirt over
my head. Half way across the street
a little boy rushed up to me and
shouted: "Teacher, you've got both
your skirts over your head!"—Ex-
change.

Honor Memory of Eyron.
Recently the grammar school of
Aberdeen unveiled a statue of Lord
Eyron, its most distinguished pupil,
who died a hundred years ago.

The poet went north in 1792 and be-
came a pupil of the grammar school in
1795, continuing there for three years.
The places where he spent his vaca-
tions as a schoolboy are much visited
by admirers.

Honey of High Food Value.
Honey is one of the most concen-
trated foods. Most foods contain a
certain amount of indigestible matter
which is discharged from the system
in the form of waste. In honey a frac-
tion of 1 per cent only is actual waste.

That's an Idea.
Efficiency Expert (after test of
office)—Well, sir, I find an awful lot
of pins on the floor. If you will give
orders to the help to pick them up,
they will receive bending over and you
will save a lot of money on pins.

Opportunities of Mind or Motion.
Watching motion pictures and plays
is the surest way of making the
viewer feel the thrill of the thrilling
of bodily heat. Some showmen lower
the heat capacity as the act approaches
the climax.

THE GENT WHO VOLUNTEERED TO CARRY THE BABY AWAY

ADMISSIONS
—The will be served this afternoon at the Country club at 4 o'clock.
—Dr. George J. Dunn last evening addressed the graduates of the Day-report school.
—A freight wreck near Richwood, which blocked both main tracks made the trains from Albany over an hour late last evening.
—The Oneonta Gladiators crew team with Tannersville at the mountain village this afternoon. Tomorrow Bridgwell will take his men to Schoharie.
—The Ethel Starboard troop, 4th Brown, left yesterday for a week in camp at Cliffside, Goodyear lake. They are in charge of Miss Catherine Curtis.
—L. F. Stanton has delivered the following new Nash cars this week: J. M. Merrill, Oneonta, touring; Dr. Tryon, Jefferson, touring; W. H. Newport, Oneonta, roadster.
—Fifty members of the Christian Endeavor society of the First Presbyterian church held a most enjoyable picnic at Cliffside, on Goodyear lake, yesterday afternoon. Swimming constituted the greatest source of entertainment.
—Sixteen Boy Scouts in charge of Dr. C. J. Biederman, Scout commissioner, leave this morning at 8 o'clock, with their outfits, for Cooperstown, where they will spend a week camping on the lake and caddying at the Golf tournament.
—The Republican County committee meets this afternoon at Municipal hall in Oneonta. Routine business will be transacted and it is probable that candidates for nomination on the party ticket will be suggested for ratification of the voters at the primaries.

O. H. S. COMMENCEMENT
Fifty-Fifth Annual Commencement Session Franchised Sunday by Rev. Yale Lyons—Other Activities.
At 7:30 o'clock Sunday evening, venerable Yale Lyons of Unadilla will preside at the baccalaureate sermon to the graduating class of the Oneonta High school in the school auditorium. As usual, most of the city churches join in this as a union service and the public is cordially invited to be present.
This will be the opening of the fifty-fifth annual commencement of Oneonta High school and a most interesting program has been arranged until the graduation exercises which will be held on Wednesday evening at 8 o'clock in the auditorium.
The alumni banquet will be held in Paul Revere corridor Monday evening at 8:30 o'clock, and the Class day exercises Tuesday afternoon at 2:30 o'clock.
The baccalaureate program follows: Hymn, The Church's One Foundation. Invocation, Rev. J. A. Judge, Oneonta. Scripture Lesson, Dr. J. W. Flynn. Prayer, Rev. C. S. Johnston, D. D. Anthem, "Hark! My Soul" (Dykens). High school chorale. Sermon, "Life's Tapestry," Ven. Yale Lyons, M. A. Hymn—"Sun of My Soul." Benediction, Rev. E. J. Farley, D. D.

At the Parshall Hospital.
Mrs. William H. Burger and infant daughter, Elizabeth Jean, returned Monday morning to the Burger home, 33 1/2 Fair street.
Mrs. William Georgeon and infant son are now at the family home, 23 Oak street.
Mrs. Mathias Hogenson of Jefferson and Andrew Madison of Kortright, Arthur Prince of Otsego and Miss Elsie Morgan of Oneonta, who lately underwent operations at the Parshall hospital, returned home Thursday.

Meetings Today.
Regular meeting of Musician's union Sunday afternoon at 4 o'clock in Trade and Labor hall. Full attendance desired. Executive board meets at 8 o'clock.
It's a Hammer.
And it's the best and safest place for saving money ever devised. Some five million people in the United States are using this great conservative system which has put hundreds of Oneonta people on easy street. It's this way. If you lay away \$5 cents daily and safely place with it monthly, it is added at six per cent compound interest, which is equal to seven and one-half per cent when figured yearly and \$2,000.00 will be handed back. Yes, and you can get what you put in, with a share of its gain, after six months. Do you want more money built in Oneonta? If so, will you assist me in supplying needed money, by commencing with me at once, when you not only assist in building up your home city, but get the best return and safest investment in the world. It's an institution where all savings and gains belong to its members and where all get a fair share and square deal. It's the safe and sane Oneonta Building and Loan association.
adv 11.

More Are Some Good Gang.
New semi-bungalow, six rooms and bath. Modern improvements. Large lot. Price \$4,500, cash \$500. West End.

FOURTH ANNUAL REPORT
Addressed by George Gandy, S. F. C. A. at 7:30 by President and Treasurer.
Following are the reports of the W. T. Hyde and Miss Elizabeth C. Patterson, president and treasurer respectively of the County Society for the Prevention of Cruelty to Animals, which has done four years of efficient work in Oneonta.
My the Foundation.
After four years of vigorous humane work, by your agent, she is pleased to report that conditions in Oneonta county have greatly improved. There are unmistakable signs of cooperation among the citizens of the county to help in the work undertaken, thereby relieving your agent in many ways, and helping her to obtain the results desired.
Owing to the large hay crop in 1932 there were fewer cases of starvation, among the cattle but, not withstanding, some cattle wintered poorly and were in very thin condition this spring.
The practice of using spiked poles, bludgeoning and hobbling cattle, instead of building fences to keep viciously taught by your agent, such cruel methods are strictly against the law and should not be tolerated.
Considerable time has been given to the humane transportation of calves, and a conviction was obtained, where calves were cruelly tied with ropes.
Troop C of the State police, commanded by Captain Fox, have in every way possible cooperated with your agent in the humane work in this county.
Splendid work is being done through "The Little Paper," which is so ably and delightfully edited by Miss Elizabeth Patterson. This paper is not only interesting to the little ones but teaches them kindness to all our dumb friends.
During the past year 173 complaints have been received and investigated, 3 arrests made and 3 convictions obtained. 5 jail sentences suspended and 4 fines imposed.
35 animals have humanely been destroyed (5 horses, 2 cows, 3 dogs, 25 cats) free of charge.
It will greatly assist your agent in her work, if all cases of cruelty be reported to her; under no circumstances will the name of the complainant be revealed. Respectfully submitted.
Isabel Ballard Hyde.

O. H. S. ALUMNI BANQUET
Meeting and Annual Dance to be Held in Paul Revere Corridor Monday Evening at 8:30 o'clock.
While the definite response to the sale of tickets for the annual banquet, meeting and dance of the Oneonta High school Alumni association which is to be held in the Paul Revere corridor of the school building Monday evening at 8:30 o'clock has been decidedly weak thus far, the committee in charge feels certain that all alumni who can possibly attend will be present and have put forth their efforts to make the affair the most successful in the history of the school.
So the banquet is to be the best ever held by that organization and its attendance will be the largest. This is the first place where the plans of the committee show any uncertainty, not of the success of the evening but rather of ability to care for those who wish to attend the banquet.
The committee asks that those who wish to attend the feast secure their tickets before Monday noon that arrangements may be completed with the caterers to secure an abundance of viands. But of course there will be accommodations for a few of those who can not be certain of their plans.
The menu of the banquet:
Fruit Cocktail
Chicken Croquettes Tartar Sauce
New Potatoes with Parsley
Tomato Surprise
Vanilla Cream
Chocolate Sauce
Cake
Coffee
The radio program:
Announcer—Nathan Pendleton, 1917.
O. H. S.—William Brewster, 1923.
Selection. High School Orchestra.
Echoes from King Tut's Tomb — Miss Cowan, faculty.
Mim. Charles J. Beams, 1933.
Buy your tickets today — Gardner & Stevens, Carr Clothing company, Stevens Hardware company, or Citizens National bank.

COUNTY BAR MEETINGS
First Annual Meeting to be Held at Oneonta Country Club, Saturday, July 7 — A Distinguished List of Speakers.
As previously announced, the annual meeting of the Oneonta County Bar association will be held at the Oneonta Country club, Saturday, July 7, at high noon, followed by a luncheon at 1 p. m.
Hon. Charles C. Flueck, president of the association, has certainly garnered a most distinguished list of speakers for the occasion, which should mean a full attendance of the members, as well as any others fortunate enough to be invited.
An invited honorarium. Chief Judge Haddock of the court of appeals, and Justice Hinman of the appellate division will be present, and now comes the joyful tidings that Lewis E. Carr, counsel for the Delaware and Hudson company and one of the most eminent lawyers in the state, as well as an after dinner speaker whose reputation is widely known, will honor the occasion by his attendance.
Of course, the honored leader of the Oneonta county bar, Justice A. H. Kellogg, will see the need off of the infant association, the organization of which largely emanated from his mind, and if their engagements do not conflict, Justice McCann and Justice Rhodes are to be on hand.
I. O. O. F. Memorial Service.
The local lodge of I. O. O. F. will hold memorial services tomorrow afternoon at 2 o'clock at the temple, on Chestnut street. The program is as follows:
Opening ceremony.
Reading of Proclamation.
Roll Call, with response by Odd Fellows and Rebekahs.
Solo, Selected.
Address, Rev. W. E. Howard of Unadilla.
Closing hymn.
Benediction.
Do not hesitate. If you have not found the coffee that suits you, buy a pound of Klipnockie today. It hits the right spot. adv 11.

FRANK L. TORREY DEAD.

Former Oneonta Resident Passes Away at Syracuse Hospital.

Frank L. Torrey, a former resident of this city and well known here, died at about 8 o'clock Thursday evening in a Syracuse hospital as surgeons were administering the anesthetic for an operation of a burst gall duct, from which he had been suffering for about three weeks. The body will arrive in Oneonta on the 3:45 train this afternoon and services will be held on Sunday at 2 o'clock from the home of his brother, Rufus J. Torrey, 1 Irving place, with Rev. Edson J. Parley of the First Baptist church, officiating. Interment at Glenwood cemetery.

The deceased was born in Otsego county on August 2, 1870, and was the son of John L. and Elizabeth (Wickoff) Torrey. He was twice married. His first wife, to whom he was wedded in 1892 in Oneonta, was Grace A. Baum. She died about two years after their marriage. Three years after her death he was married at Cooperstown Junction to Hetsey Cuthbert.

Mr. Torrey resided in Oneonta for about ten years 35 years ago. More recently he conducted for nine months the grocery store at 25 Broad street, selling three years ago to the present proprietor, George I. Bennett. He had also lived at Camden, Oneonta and Syracuse, where he died. By trade he was a wood finisher on cars.

Surviving are the wife; three daughters, Mrs. Hazel Woodhouse of Syracuse, Mrs. Myrtle Wright of Oneonta and Mrs. Mary Torrey of Oneonta; one brother, R. J. Torrey of this city; and four sisters, Mrs. Kate E. Devue, Mrs. George Platts, Mrs. Edward Seymour, all of this city, and Mrs. Anne Byard of West Oneonta. There are also three grandchildren.

Mr. Torrey was a member of the Odd Fellow lodge in Oneonta and of a Masonic lodge in Syracuse. He was a much respected man with many friends to regret his passing.

A three month's subscription to The Star for \$1.00.

DEATHS.

Mrs. Lena McMorris.

Friends and relatives of Mrs. Lena McMorris of 24 Broad street were deeply shocked and grieved by her death at 10:45 o'clock yesterday morning at the Fox Memorial hospital.

She had been suffering for some time from cancer, but had not been seriously ill until very recently. Mrs. McMorris was born in the town of Milford, May 10, 1879, the daughter of Mr. and Mrs. LaVerne G. Platt of that town. She was married in Oneonta and had lived here for the greater portion of her life. The deceased was a member of the Main Street Baptist church. She is survived by her mother, Mrs. LaVerne Platt, of 16 Division street; two sons, Clifford G. Anderson of Oneonta, and Stuart Anderson of Hallstead, Pa.; two sisters, Mrs. John Opel of 16 Division street; and Mrs. James R. Mead of 183 Division street; two brothers, Garrett Platt of East Worcester and Morris Platt of Binghamton.

Funeral services will be held from the home of Mrs. J. R. Mead, 183 Division street, Sunday afternoon at 2 o'clock. Rev. C. S. Pendleton of the Main Street Baptist church officiating. Burial will be at the Plains cemetery.

In Memoriam.

In remembrance of Ellen G. Rock, wife of W. F. Rock, who died June 24, 1922; born June 24, 1842; Farwell, dear, but not forever.

There will be a glorious dawn. We shall meet to part, no more. On the Resurrection morn.

In the cold and silent tomb, Thou shalt have a glorious waking. When the Blessed Lord doth come. Then God will be with us. Never to part again.

—Husband, W. F. Rock.

MRS. LENA MCMORRIS

Lena McMorris Passes Away at Home of Daughter, Mrs. Henry Kroon.

Mrs. Lena McMorris passed away at 10:45 a. m. yesterday at the home of her daughter, Mrs. Henry Kroon, 2 Franklin street, following an illness of several weeks' duration. Funeral services will be held from the Kroon home at 1 p. m. on Monday with interment at Davenport.

The deceased was born at Treadwell on June 4, 1849, and was the daughter of Wells and Sophronia (Munger) Kroon. On December 1, 1867, at Franklin, she was united in marriage to William S. McMorris. Most of her life was spent in Davenport, she coming to Oneonta to reside with her daughter about four years ago.

Surviving are the husband; three daughters, Mrs. William Thompson, Mrs. Henry Kroon and Mrs. A. W. Hanson, all of this city; four sons, Wellington B. McMorris, Robert A. McMorris and William J. McMorris of Oneonta, and F. J. McMorris of Fish's Eddy; and two brothers, Stillman Kroon of Davenport and Seymour Kroon of Treadwell. A sister, Mrs. A. L. Jackson, a well known and beloved resident of this city, died some years ago.

Mrs. McMorris was a member of the First Church of Christ, Scientist, of Oneonta, and of the Oneonta Rebekah lodge, which will use its ritual at the funeral service. She was a woman of traits of character which made her friends as numerous as her acquaintances. A fond and loving mother, her absence from the household will be keenly felt. To the bereaved ones the sincere sympathy of many will be extended.

FORMER ONEONTA RESIDENT.

Charles L. Bryant Dies Thursday at Home of Daughter in Ilion.

Charles L. Bryant, a highly esteemed resident of Ilion, died at 12 o'clock Tuesday night, at the home of his daughter, Mrs. Glenn N. Hall, 258 East Clark street, Ilion. Death followed a brief illness of heart trouble. He was born in North Norwich, Oct. 14, 1853, and lived there the greater part of his life, moving in 1896 to Oneonta to what is known as the Johnathan Richardson farm in the township. He later moved to Ilion, where he was employed in the library bureau until ill health compelled his retirement. He was a member of the Presbyterian church of Laurens, in which town and in Oneonta and Norwich, many friends will regret his demise.

Mr. Bryant is survived by his wife, one son, Stanley E. Bryant of Ilion, and two daughters, Mrs. Harry Sargent of Mt. Vernon and Mrs. Glenn N. Hall of Ilion. The funeral was held Friday at the home of the last-named daughter, Rev. E. D. Barnes officiated and burial was at North Norwich.

Kum-Buck Picnic.

The annual reunion of the alumni at the State School of Agriculture, Delhi, will occur in the State school grove, Monday, June 25. Basket picnic at noon. Speaking and annual business meeting, 1:30 to 2:30 p. m. All alumni and friends are urged to be present.

Laurens Baccalaureate Service. Laurens, June 22.—The baccalaureate service for the high school will be held on Sunday evening at 7:30 o'clock in the Methodist Episcopal church. It will be a union service. Rev. Graves will preach the sermon.

OTSEGO NEWS LETTER.

Oneonta, June 22.—The "Honest Doubter" will be the theme of the morning sermon of Rev. Charles Voss in the Methodist church Sunday morning, with Sunday school at noon. At 7:30 a union service will be held in the Presbyterian church to hear the farewell sermon of Dr. H. T. School, who is closing eight years of service here, and forty-five years in the Christian ministry.—There will be no service in Immature church on Sunday next, June 24, owing to the minister, Rev. Yale Lyon, having a previous engagement elsewhere. The second and fourth Sundays of each month are the regular appointments for this parish, and will be no understood unless notice to the contrary is given.—The Ladies' guild of Immature church will hold a card party at the home of Mrs. W. S. Marland this (Saturday) afternoon from 2 until 5.

Fruit-Laxatives for Indigestion

These wonderful "Fruit Lax Tablets"—made from the juices of apples, oranges, figs and prunes and tonic—will correct indigestion, sour stomach and distress after eating. 50c. a box, 6 for \$3.50, trial size 25c., at druggists or sent post paid by Fruit-Lax Limited, Ogdensburg, N.Y. Ottawa, Ont.—London, Eng.—Christchurch, N.Z.

Vacation Soon

Some folks think a fellow can wear any old thing when he is on vacation. He may be going to the country to visit. How will the boys and girls receive him if he is dressed shabby? His vacation will be spoiled.

Fit him up right and encourage his self-respect. It will pay parents well to keep your boys up to the mark. Good clothes will help a lot.

Our clothes have style and wear and are rightly priced.

SPENCER'S

RECALLS ADOBE WALLS BATTLE

50TH Anniversary of Historic Conflict Next Year.

HELD 700 INDIANS AT BAY

In the remote reaches of the West, where adventures plodding still go on and the epic of the conquering of the West is kept keenly alive in frontier stories, few tales are told that carry such a thrilling portrayal of the early days as that of the Adobe Walls battle. In the later days of the West when a man who had taken part in that terrible one-sided struggle appeared in a community he was singled out as a hero and all honor done to him.

Now the Adobe Walls fight is to be vividly recalled before the whole country, for next year will be the fiftieth anniversary of the historic conflict. A movement is already on foot in Oklahoma and Kansas to convert the scene of the encounter into a public park and memorial, says the New York Times.

The fight at Adobe Walls—or Dobe Walls, as the natives call it—ranks with Forsyth's battle with the Cheyennes and Brule Sioux at Beecher's Island, where Colorado and Kansas have joined in putting up a monument, and with the Wagon Box fight near Fort Fetterman in Montana. All those engagements represent the successful defense of a few white men against the surprise attacks of apparently overwhelming numbers of Indians.

Bat Masterson, later a well-known frontier figure and in quite recent years, up to the very time of his death, a few months ago, a deputy United States marshal in New York city, was in the Dobe Walls fight. At that time Bat was a slip of a boy, engaged in the dangerous business of hunting buffalo for a living. Nearly all those with him at the time of the Indian attack were fellow hunters. All were skilled users of firearms.

A woman, Mrs. William Olds, who had come with her husband from Dodge City to open a restaurant at Adobe Walls, went through the siege behind the sun-baked walls of the little settlement. Two of the defenders of the settlement are still living—Andy Johnson of Dodge City and Fred Leonard of Utah. Twenty-eight white men took part in the fight, among them being "Billy" Dixon, a celebrated marksman.

Adobe Walls is on the Canadian river in northwestern Oklahoma, about 50 miles southeast of Guymon. The settlement took its name from adobe walls which were standing in the earlier pioneer days.

Adobe Walls as Shield.

The hide hunters of the seventies hit on the old site as a likely place for a settlement. In 1874, the year of the Indian fight, there was a lively frontier settlement there. There was a stockade around the little group of buildings, all of which were of adobe—very fortunate for those present, as was soon to be demonstrated. All the buildings faced to the east, the main ones in a row. There was the store of Kath & Wright at the south end, with a big pile of buffalo hides at the rear of the building. Then came Hanrahan's saloon, and 50 yards north of that was Leonard & Meyers' store, forming a corner of the stockade. A mess house stood at another corner of the picket stockade and near that was a well. The mud walls of the buildings were two feet thick. This form of construction afforded warmth in winter and coolness in summer. Around the settlement were low sandhills. About 1,200 yards away was a butte-like hill, of considerable height, where Dixon, the marksman, brought down an Indian and was credited with the best long-distance shot of the day.

Indian depredations were common in the spring and early summer of 1874, and the business of hide hunting, always dangerous at its best, had become unusually hazardous. But the hide hunters were not men to be deterred by such frontier dangers. A large party gathered at the Walls to start out on June 27. Twenty of those at the settlement on the day of the fight were buffalo hunters. The others were merchants and their clerks. The men sat up late on the night of the 26th. The weather was sultry, and the doors of the stores and other buildings were open.

The talk ran to the killing of four hide hunters by Indians in the vicinity of the Walls only a few days before. But nobody gave any indication of intending to abandon the projected hunt. By one o'clock in the morning all were asleep, blankets being spread on the floors in the various buildings.

About two o'clock in the morning occurred an incident which had an important bearing on the outcome. The ridge pole in Hanrahan's saloon broke with a report which aroused the entire settlement. The roof did not give way entirely, but was sagging in a threatening manner, so every one turned out to help repair the damage. By the time repairs on the roof were finished it was dawn. Dixon went down to the creek nearby to get his saddle pony, which had been stalled there. As he approached the creek he saw what appeared to be an army of Indians in silhouette against the red sunrise. The Indians were Cheyennes and Comanches. Their war banners were fluttering and they were coming at a gallop. As soon as they saw that they were discovered they gave the war whoop and moved their points to the speed. Dixon fired and dashed for the stockade on the back of his light-colored pony.

It was supposed that the Indians would pursue their usual tactics and would merely circle the buildings, killing such men as were outside and driving off the live stock. But the Indians had been told by their chief that the white men were not to be trusted. They would all be killed and would be killed with clubs. The Indians charged up to the stockade and through the gates. They broke every pane of glass in the buildings and hammered on the doors with the butts of their rifles. Dixon had reached Hanrahan's in safety. The Cheyenne chief Roman Nose later attacked Forsyth's scouts at Beecher Island. They rode up to the stockade and fired through the pickets. The horses of the buffalo hunters were in the stockade tied to the wagons so an early start could be made. The Indians shot arrows and bullets into the horses, killing all of them, in order to deprive the defenders of any chance of getting away.

would all be killed and would be killed with clubs. The count now happened had not the ridge pole in the saloon broken as it did.

The Indians charged up to the stockade and through the gates. They broke every pane of glass in the buildings and hammered on the doors with the butts of their rifles. Dixon had reached Hanrahan's in safety. The Cheyenne chief Roman Nose later attacked Forsyth's scouts at Beecher Island. They rode up to the stockade and fired through the pickets. The horses of the buffalo hunters were in the stockade tied to the wagons so an early start could be made. The Indians shot arrows and bullets into the horses, killing all of them, in order to deprive the defenders of any chance of getting away.

A Mystery of the Battle.

"Billy" Tyler, one of the defenders, who went to the stockade to get a better shot at the Indians, was shot through the lungs and died in a few minutes. The hunters who made a stand in the saloon were short of ammunition, so Dixon and Hanrahan made a dash for Kath's store, where there was a plentiful supply, and came back with enough for all the big "30" guns, with which the platoon could do deadly work.

The Indians, 700 in number at the start, kept up their attacks until two o'clock in the afternoon. Apparently they thought it impossible that such a small number of men could hold out against such odds. But the hide hunters fought coolly and took no chances. Behind the thick adobe walls they were comparatively safe. They poured forth a deadly fire from windows and doorways. Every attack cost the Indians heavily in lives.

"All the horses in the corral had been killed, and, even after the attacks slackened, the situation of the beleaguered party seemed to be hopeless. Realizing that the hide hunters could not be dislodged by direct attack, the Indians strove to scatter the party. They kept up a scattering fire, to show they were watching every avenue of escape.

After dark on the second day, Henry Lease, a buffalo hunter, took his big "30" and started for Dodge City. Nobody had much hope that he would get through. His exploit ranks with that of Donovan, Pitney, Stillwell and Trudeau of the Forsyth scouts, who wormed their way through the investing Cheyennes and Sioux and made their way to Fort Wallace. Lease reached Dodge and gave the alarm, but his journey took several days, and he did not return until the morning of the fifth day of the siege.

On the fifth day of the siege, shortly before the relief party appeared, Olds, the husband of the only woman present, was accidentally killed. He was climbing down a ladder, and in some manner his rifle was discharged. The top of his head being blown off, at first it was supposed he had been killed by an Indian. His wife saw him fall. She had gone through the siege with the utmost courage, encouraging the men to keep up the fight, and seemingly not being alarmed over the prospect of death or capture.

By the time the relief party arrived, the Indians had withdrawn; 200 had been killed. The Indian allies had been on the warpath several months and had killed nearly 200 people on raids in New Mexico, Texas, Colorado and Kansas. They were exultant over their easy progress, and their setback at Adobe Walls came as a stunning blow.

ROADS CLEARED OF SIGNS

Washington Strips All Away to Give Drivers Clear Vision.

In making a clean-up of advertising signs, posters, placards and literature of all sorts along the state highways of Washington, district engineers and maintenance crews are playing no favorites, and are no respecters of persons, places, things or corporations.

Everything has to go, from the postcards to the sheet iron weather registers and the big ornate de luxe frames. The purpose of the highway department is to make the roads more clearly and to insure safety. Endless rows of colored billboards have obscured the view of automobiles. Curiously enough, the law covering this work has been on the statute books for twenty years and was dug up and re-enacted by the last assembly.

"Uncle Sam" Is Dead.

"Chris Kern" John William Wood, six feet eight inches tall, of Columbus, O., is dead. He was a victim of sleeping sickness. Whenever a patriotic parade was held, John Wood marched at the head of the procession as "Chris Kern." His coffin was seven feet long.

Job for "Men."

Freddie was much elated at the thought of going downtown to buy his first cloth suit. But he looked glumly at his mother, who was preparing to go with him. Then his face brightened, and, looking importantly at his father, he said, "Dad, don't you think we had better know more about buying a suit?"—Exchange.

Has Best Developed Skeleton for His Age

Little Jackie Ott of Miami, Fla., is no "living skeleton," but the boy is famous for his bone framework. Just the same, even though it is overlaid with a wonderful layer of firm muscles—for a series of X-ray pictures, just taken, show that the four-year-old Florida wonder has "the best developed skeleton for his years" that the radiographers ever saw. Jackie has made the winning of health and "perfect child" prize a habit, and is famous for his diving, swimming, and all 'round development and athletic ability.

Stinging Bees Make Italians Goutless

Rome.—The popular Italian theory that the sting of bees is a good cure for gout, arthritis and every other painful disease of the joints is now being practically applied by Italian doctors. For centuries Italian farmers have known of this cure and used it. Hence the saying that only a healthy man gets pain and swelling from bee stings. The cure is to get a bee to sting the patient on the spot where the joint suffers most. Whereas a healthy man feels pain, the patient thus treated finds that the poison of the bee's sting has cured his diseased joint.

The worst form of arthritis is most easily cured by bee stings. In Germany the cure was known shortly before the World War, thanks to a German doctor who saw Italian peasants treating gout with bee stings when he was visiting this country. In Larnenburg, there are now classes at the Central Society of Agriculture where students have free instruction in the best way to cure gout and kindred ills with bee stings.

Carey
ASPHALT SHINGLES

"The Shingle that Never Curles"

YOU build for future years as much as for the present when you roof with Carey Asphalt Shingles.

Summer sun and winter snow only enrich the color and charm of your Carey Shingle roof. The pretty red, green and blue-black colors never fade.

Every shingle will always lay perfectly flat without the slightest curl just as the day it was rolled on.

The crushed slate surface will ever protect against fire danger from flying sparks, you will save every year on your insurance, and the extra-heavy felt base, saturated with enduring waterproof asphalt, will always resist weather as when you first "rolled in."

Let us estimate for you on Carey Asphalt Shingles.

CORNER GREEN & PROSPECT STS. ONEONTA N. Y.

Weds: Prince

Mrs. Woodell Phillips, noted war worker of New York City, has just announced her recent marriage to Prince Nicholas Vladimir von Lippe-Lippe, a page to the late czar of Russia, whom she met eight years ago.

U. S. LEADS IN MANUFACTURING

Statistician Says This Country's Economic Position Has Never Been Paralleled.

Did you know that the United States now leads the world as a manufacturing nation?

New York.—The United States is the foremost manufacturing nation today, according to K. M. Miller, statistician of the National Bank of Commerce. Supporting this statement is the fact that the international economic position of the country has not heretofore been paralleled in the history of the world.

The leading place as a producer of raw materials would not of itself suffice to give the United States the international position which it now occupies, however. It has won that place by reason of the fact that it is not only the foremost producer of raw materials but has been for some decades the foremost manufacturing nation.

"The United States took first place in the iron and steel industry about 1890; now its annual product is in excess of the combined output of the United Kingdom, Germany, France and Belgium," says Mr. Miller. "It became the foremost consumer of raw cotton in the closing years of the Nineteenth century, taking the leadership from the United Kingdom, which had theretofore been the largest user."

"Until the World War the United Kingdom was definitely the leader in the woolen and worsted industries of the world. During the war period American raw wool consumption and production of fabrics expanded rapidly, and it is probable that there is not now any material difference in the capacity of the industries of the two countries from the standpoint of wool consumption. The United States now uses one-third of the world's cotton, one-fourth of the commercial supply of wool, about three-fifths of all copper mined and iron ore produced, two-thirds of the annual raw silk crop entering into commerce, and from two-thirds to four-fifths of the raw rubber grown."

Depends Upon Domestic Demand. "Outwardly the conditions surrounding the development of industry in the United States do not appear to differ greatly from the influence which have conditioned the development of manufactures in Europe. Fundamental differences nevertheless exist. Evidence of them is found in the fact that in the main American manufacturers produce for domestic demand, while European industries are dependent on their export business."

"This difference in the relative importance of export trade of the manufacturing industries of the United States and of Europe has existed almost from the beginning of the development of the factory system in its present sense. In Europe modern industry was superimposed upon countries already fairly mature. Fields had long been tilled. Coal was now as a source of power, but metal mines had been exploited for hundreds of years. In England and in many parts of the Continent supplies of timber were becoming insufficient for the needs of the people."

"After the introduction of power spinning and weaving machinery, the use of coal as fuel, with the consequent development of numberless mechanical devices to do the work which heretofore had been done by human hands, it was possible for a time for the European countries to depend primarily upon their own natural resources and their own markets, but this condition did not long prevail. Another circumstance of considerable importance in its effect both on the consuming power of the European market and on methods of production is that before the coming of modern industry, centuries had already stabilized social customs, stratified society and fixed the habits of life of the people."

Several Factors Involved. "It is thus clear that the United States has attained to its dominant position as a manufacturing nation as a result of the combination of four factors:

"1. The rich natural resources of the country have not only furnished the materials for manufacture, but their development has resulted in an average purchasing power in excess of that of any other country excepting those British dominions similarly placed."

"2. Labor has been so fully employed in the development of natural resources that it has been necessary to attain to a maximum economy in its use."

"3. The combination of these two factors has stimulated invention and has made possible and profitable the development of large-scale production by labor-saving methods."

"4. The development of these methods in turn has increased the purchasing power of the average man by means of high per capita production and capital accumulation."

Up War Bureau Wants Girls. Tokyo.—For the first time in its history the war department is enlisting women. It is calling for applications from girls from fifteen to twenty-five years of age to learn draughtsmanship.

Condensed Milk Preferred. Goodness condensed milk, stored with hot water, has won a place as a highly esteemed drink among the Chinese of the Southern District. They prefer this substance to the excellent fresh milk, containing a high percentage of butterfat, available from the water buffaloes and other cattle maintained in considerable numbers in the region.

THEMES AS TO DIAMONDS

Many Causes Put Forward for the Breaking of the Hardest Stone Known to Mankind.

Much attention has been given to the question of the origin of the numerous broken fragments of diamonds found in the Kimberly mines. One hypothesis is that these fragments owe their condition to violent eruptive outbursts that shattered the rocks in which they occur. Another common belief is that certain classes of diamonds frequently break spontaneously. One authority states that light brown, smoky diamonds often crack on exposure to the dry air, but they will remain intact if kept in a moist place. In accordance with this notion there is a popular story of South African diamonds being sent to England inside potatoes.

Another authority seems to attribute the fractures to the sudden lowering of pressure in the space surrounding diamonds and speaks of consequent explosions. He states that he has met persons who have heard of the bursting of smoky diamonds, but none who ever witnessed this phenomenon with his own eyes.

This idea of the bursting of diamonds is of great antiquity. Albertus Magnus says that a diamond immersed in the fresh, warm blood of a goat will burst, especially if that animal had previously browsed on parsley or drunk wine. Many vouchsafes a similar notion.

The majority of modern authorities believe that, in most cases, the breaking of diamonds has been due to the energy exerted by the mineral inclusions which they so often contain. These are most frequently garnet, but sometimes sircon, ilmenite, iron pyrites and possibly chrysothite. The thermal expansion of nearly all crystals, except those of the beryl family, at ordinary temperatures is much greater than that of the diamond. If the same is true under intense conditions of heat and temperature, differences in the rate of expansion and contraction of the diamond and its inclusions would account for the shattering.—Washington Star.

Not Much New in Cotton Machines. Thousands of years before the invention of cotton machinery in Europe Hindus had cotton gins, spinning wheels and looms.

Depth and Giftiness. Clear writers, like clear fountains, do not seem so deep as they are; the turbid look the most profound.—Walter Savage Landor.

Old Surgery Still Practiced. Two thousand five hundred years ago Hindus performed surgical operations for catarrh by a method which still survives.

Smallest of the Great Lakes. Lake Ontario is the smallest and most easterly of the five Great Lakes in North America. Its maximum depth is 135 feet.

Rich Immigrant Goes to His Own Castle

Sigmund Rothchild of Houston, Tex., a cotton manufacturer, has called for Hamburg, Germany, to accept a \$750,000 chateau, near Baden-Baden, which he acquired for \$10,000 when marks slumped. Rothchild had lived in Texas for fifteen years, going there as a poor boy. It took him two years to collect his family, scattered by the war. They now are awaiting him in the chateau.

Communion Wine Causes Fall of Church Robbers

Berlin.—Thieves who have been making the round of churches, stealing silverware, crucifixes and silver name plates on pews, were captured by the police recently. They had entered the Stralauer church and discovered eight bottles of rare wine used in the communion service, engaged in a drinking bout. Ribald songs and shouts attracted the attention of policemen, who forced the doors and arrested the revelers.

Thief Breaks Window and Grabs False Teeth

Washington.—The novelty record for petty thievery was broken here recently, when a burglar smashed the illuminated show window of a dental establishment and stole one set of false molars. While detectives are diligently seeking the molarless burglar, the dental establishment is endeavoring to ascertain whether any meat markets will suffer loss through theft as a result of the burglar's newly acquired teeth.

Graduate From School He Has Never Attended

Kokomo, Ind.—Burratt Raimon will be graduated from a high school this year which he never has attended. He is one of a class of 120 students who will be given diplomas from the Kokomo high school. Raimon, who is eighteen years old, suffered injuries six years ago which have made the use of his legs practically impossible. He has determined to continue his education, however. Miss Bernice Havens, at one time a city school teacher, taught him at home and soon he was prepared for high school work. Miss Virginia McCune, a member of the Kokomo high school faculty, took up the work then. Once a week throughout the four-year high school course she visited the Raimon home, heard the young man's recitations and gave him new assignments. It is said his average grade in all subjects has been between 90 and 95 per cent.

Only Real Progress. Human progress is calculated by the contributions that we make, constructively, in that work to which we have assigned ourselves.—George L. Berry.

Stray Bits of Wisdom. Like a great poet, nature produces the greatest results with the simplest means. There are simply a sun, flowers, waters and love.—Heine.

Robins Numbered in Millions. It is estimated there are 22 million robins in the United States, which is a larger number than the English sparrow, their nearest rival.

Tip for Statesman. Lame ducks are inevitably by-products of popular government. But every statesman should have a trade.—Chicago Daily News.

Steinmetz? Not Kalenin!

At first glance one might think that this is the familiar picture of Steinmetz, the electrical wizard at work. It's Kalenin, one of the leaders of the Russian Soviet, at work on a timber for a farm building. He works at manual labor when not making laws.

ASSOCIATE SOUND AND COLOR

Both Children and Adults, Frequently Unconsciously, Link the Two in Their Minds.

Mr. Horace B. English sends an account of the following interesting incident to Science Magazine. It seems to indicate the manner in which children, and many adults as well, come to associate sounds with colors.

Fulton (aged three years, eleven months, listening to the phonograph)—Daddy, I think soft music is yellow. Dr. P. (his father, a distinguished chemist)—Yellow? And what color is loud music?

Fulton—Well, it is black. Dr. P.—And what is blue music like?

Fulton—Blue music is loud, but not so loud as the black music. Dr. P.—Tell me, why is soft music yellow?

Fulton (after thinking a moment)—Well, when you mark with yellow crayon on paper, you can't see it very well, but when you mark with black you can.

Metal Long in Use. Tin is found in the East Indies, Bolivia and Cornwall; in cerussite or the stone, a compound of tin and oxygen. Tin was known to the ancients. It has been found in Egyptian tombs.

Mother Love Supreme. The mystery of a mother's love, the tenderness of her sympathy, the vastness of vision of her intuition, the subtlety of her intellect, are to be surprised.—Dr. Alexander Lyon.

DAIRY PRODUCTS' USE INCREASES

American Consumption Is Steadily Growing, Says Head of Dairy Congress.

Washington.—Only the healthy and growing condition of the American dairy industry has enabled it to withstand the drop in exports which came with the world readjustment. This also has been aided by a growing taste of the American people for dairy products, says Dr. H. E. Van Norman, president of the World's Dairy Congress association, which is preparing for its international meeting here in October.

"The United States has reached a point where the production and consumption of dairy products are almost equal," Dr. Van Norman said, "as is indicated by the fact that its exports and imports of dairy products are nearly balanced."

"The fact is that our dairy industry is in a healthy condition and it is kept so by our people's growing appreciation of dairy products. The fact that our consumption of dairy products today almost equals our production indicates a tremendously rapid growth in appreciation."

Foreign Market Active.

"While our foreign business in butter and cheese does not reach a great volume, our domestic markets are constantly influenced by the conditions that obtain in the world markets. The foreign business which we do carry on in dairy products also frequently has an importance out of all proportion to its size in the stabilizing of our domestic conditions. A few weeks ago, when our cheese market was particularly slow, an opening for cheese occurred in England. Our owners of stored cheese immediately 'unloaded' as much as they could on the English market. The deficit was caused by the failure of New Zealand, where the creameries are equipped to manufacture either butter or cheese, to pay the usual attention to cheese."

"That the American merchants grasped the opportunity just in the nick of time is evidenced by a cablegram from the American agricultural trade commissioner, stationed at London, recently received by our Department of Agriculture, stating that the American cheese now on storage in England amounts to 14,000 boxes, against about 21,000 boxes a year ago, and that the Australian cheese on storage amounted to 31,000 crates, against a trade more than 73,000 crates a year ago; but that Australia had 122,000 crates of cheese afloat and bound for England, about 11,000 crates more than she had on the water at this time last year. If we had needed to unload butter on the English market we would not have had the same fortune, for the cablegram states that England has in storage 423,000 boxes of Australian butter, an increase of 23,000 for the year."

Biggest Market Is at Home. "It is noteworthy that, in spite of increased production, the United States is shipping less butter today proportionately than it did in the five-year period before the war."

"While the American dairyman is finding a tremendously important market at home, a new group of dairy nations is rising to grasp the international markets. Equipped with a large proportion of American machinery and to a very great extent directed by graduates of American agricultural colleges, New Zealand, Australia, Argentine republic and Canada—all countries with small populations of milk consumers and large populations of dairy cattle—are proving themselves mighty competitors of the historic dairy countries of Europe. While these countries are in their youth, with multitudinous possibilities ahead, the older dairy countries have reached very nearly the line of their productivity."

Widow's Plea Silences

Avenging Guns of Tong

San Francisco.—Tradition—one of a coldly cruel sort—has been melted by the heart of a woman in San Francisco's Chinatown, and the word went out that the late Jung DueChing, tong leader, would not be avenged.

He will not be avenged, in the old way of a life for a life, because his widow appeared at a meeting of his tong and pleaded for some unknown countryman, the symbolic rival tongman, of equal rank and prestige, whom Jung DueChing's tong had determined to kill, as tradition demanded.

"You will but visit great sorrow upon some other woman," said the widow.

And so a settlement was reached with the rival tong. It was agreed to accept \$4,000 indemnity, and to close the account. Thus Jung DueChing was buried, despite the tong law which is said to dictate that a slain brother shall be avenged before his body is laid at rest.

Superiority III-Breeding.

There is an III breeding to which, whatever our rank and nature, we are almost equally sensitive—the III-breeding that comes from want of consideration of others.—Rulwer-Lytton.

Small Boy's Idea.

A juvenile companion, having observed the corner stone of a public building inscribed "A. D. 1912," made the statement, "I suppose that means 'A.D. 1912'."

To Clean a Saffron.

To clean a saffron ring satisfactorily, take a tiny soft feather and put it back and forth between the prongs of the ring and under the diamond.—Designer.

Royal Flower Gifts Barred.

There is an old superstition in the British royal family that it is unlucky for a royal lover to send presents of flowers to his bride-to-be.

HEALING WOUNDS OF PLANTS

What Might Almost Be Tamed Surgical Operations Are Frequently Employed by Gardeners.

It seems strange to think of a plant being put into a splint very much in the same way as the surgeon fixes up a broken bone, says St. Nicholas. Yet this plan is often followed in the modern garden. From one corner or another a bough becomes broken, although the parts are not actually severed. Frequently this is due to the weight of the fruit. In this case money will be lost if something cannot be done to repair the injury.

It is here that the practice of putting a plant in splints becomes useful. First of all, the expert gently straightens out the bent portion. This has to be done with great care, so as, if possible, to avoid a complete fracture. Then he takes two splints—lengths of wood a little wider than the branch and long enough to allow several inches above and below the break—and binds them in place, not too tightly, or it would hamper the circulation of the sap. When the splints are well adjusted cotton wool is tucked into any exposed parts about the fracture. In this manner the action of the air is excluded as far as possible.

If the matter has been looked after promptly, there is no reason why the growth above the break should not go on steadily. Finally, the wound is so completely healed that the place where the break took place is as strong as any other part of the plant.—New York Post.

May Day and May Baskets.

The celebration of May day is an English custom which originated with the Druids. The Floralia, or floral games of the Romans, which began on April 28 and continued several days, were festivals of similar character. In medieval and Tudor England the first day of May was a great public holiday. The young people started at an early hour to gather flowers and hawthorn branches, with which they decorated every door and window in the village. In Northamptonshire it was the custom for the young men early on May day morning to leave a large bunch of flowering hawthorn at the door of the prettiest girl in the village; later the hawthorn gave place to the May basket. In some places in the United States May baskets are hung on the evening of April 30, but there is no authority for the custom.

Monster Planet.

Everything connected with the sun is staggeringly big. Those little dark sun-spots which you peer at cautiously through the medium of a smoked glass are, most of them, many thousands of miles across. One was measured and found to have a diameter of 13,000 miles—which means that the earth could have been pitched into it like a golf ball into a pail of water.

Many of Us Misplaced.

It's a funny old world where most of us are misplaced. For instance, we have been looking for the Apache Indians, whereas he ought to be captain of your wife's expense account.—Pittsburgh Post.

In Question

This statue of "The Virgin and Child," standing in the Metropolitan Museum of Art, New York, has been branded as a reproduction of the original in testimony in a French court. The charge has stirred up artists of two continents.

NEWSPAPER 250 YEARS OLD

German Journal Founded 31 Years Before First One in United States.

The Jenische Zeitung, a daily newspaper of Jena, Germany, has just observed the two hundred and fiftieth anniversary of its establishment. On the basis of available records, it was founded 31 years before the first American newspaper, which is said to have been the Boston News-Letter, established by Bartholomew Green in 1704. The Jenische Zeitung is still published by the descendants of its founder, Johann Ludwig Neuenhahn. The biggest local story of its history undoubtedly was Napoleon's complete defeat of the Prussians at Jena in 1806.

Why There Are Many Colonels.

In this part of the country when a man of any prominence reaches the age of sixty he becomes a colonel automatically.—New Orleans States.

Hairs of the Ages.

We are the legatees of all the genius of the past; how few of us appreciate our good fortune.—Boston Evening Transcript.

Camp for rent—Cliffside, Goodyear lake; by week, month or season. On-conta agency, Inc. Advt. St.

Stability-Safety

Students of finance and economics are optimistic as to the future, and prophesy a growth in business enterprises.

The Directors of the Wilber National Bank in anticipation of this, have transferred to the Surplus from Undivided Profits, the sum of \$200,000.

The Surplus now amounts to one half million dollars.

The Directors had the right to divert the above transfer to the benefit of the stockholders in additional dividends, but took the action they did, so as to strengthen the stability and safety of the bank.

The protection given by the large Capital and Surplus makes for security of deposits.

Then, too, the bank will be able to give larger financial aid to customers for legitimate enterprises.

We are here to serve and shall be glad to confer with you on loans or investments or to the rental of a Safety Box for the safe-keeping of your securities.

WILBER NATIONAL BANK

For Your Consideration

Life Insurance is cheaper this year for you than next.

Are your obligations capitalized?

Is your income to your family insured after your death? Learn how it can be!

Is the mortgage, if you have one, covered by insurance?

Are your payments for real estate insured, should your death occur?

Is the education of your son or daughter insured, in event of your death?

Would you like to endow some benevolent institution or hospital?

Why not purchase an annuity for old age?

The Mutual Life Insurance Co. of New York, can provide for one or all of these objects.
